Birthdate 18/07/2003

Linkedin : Niels Ouvrard

## Skills :

Software development  
Algorithms  
Data structures  
Git, GitHub  
...

## Languages practiced :

Proficiency in all operating  
systems.

Languages :  
French : Native Language  
English : B2  
Spanish : B1

## Objective

Third-year student at Epitech, I am looking for an internship in the field of computer development, from February 1st to May 31st, 2024.

## Professional experience

### Internship at FrenchFounders Frontend (July - December 2022) :

I have been able to create numerous web pages in Vue.js, connect them to the company's backend, and migrate many pages from Vue 2 to Vue 3.

### Epitech Trainer Internship (February to June 2023 and from September 2023 to January 2024) :

Our goal is to support and train students in lower years (courses, project presentations, evaluations...).

## Formation

### COMPUTER EXPERTISE | EPITECH

2021 – 2026

An average GPA of **3.79 / 4** at the beginning of the third year.

Top of the class for the second year

\* Grade Point Average: an index of the overall quality of the student's work, ranging from 0 (unacceptable) to 4 (very good).

### BACCALAUREATE | JEAN MONNET HIGH SCHOOL

2018 – 2021

With honors, (Specialization in Mathematics / Social and Economic Political Sciences / Physics - Chemistry)

## Completed projects

### Arcade (C++)

Creation of software for running video games (Pacman, Snake) and graphic libraries (SDL2, Ncurses, and SFML).

### Antman (C)

Lossless file compression using the Huffman algorithm.

(Binary trees, linked lists)

## Interests

### Sport :

I have been practicing **climbing** at a club since 2017.

### Cinema :

As a cinema enthusiast, the works of Hitchcock, Tarantino, and Kubrick have greatly influenced me.

I am also passionate about audio-visual and have strong skills in the 'Fusion' (special effects) part of Davinci Resolve software.
